

The March 2020 primary is the most important election for our country since Franklin Delano Roosevelt (FDR) ran for President during the time of Great Depression. As in the 1930s, the division between the rich and the poor has reached its highest levels in U.S. history. This is tearing apart the fabric of the nation, and our environmental and civil justice protections. It is vital for voters to turn out and enact revolutionary change.

PRESIDENT Democratic Primary

BERNIE SANDERS
